This conference's objective is to explain the impact that age and size has on churches. It seeks to outline improvements that need to be considered at each point in a church's life cycle for it to remain faithful and fruitful in ministry. With the goal of making disciples, Gary McIntosh will challenge you to take your church to a higher level of ministry.

- Discover where your church is on its life cycle.
- Learn the impact that age and size has on the development of your church.
- Analyze the challenges that keep your church from reaching its potential.
- Think through the steps to take your church to its next level of ministry.
- Plan how to reach your Growth Point!

Understanding the dynamics of growth: INTERESTING.
Knowing where your church is going: PRICELESS.
